Bevelled Mirrors

Demista Heated Pads

Non-Illuminated Mirror Accessory

An effective solution to an everyday problem. A Demista Pad can be easily fitted behind any mirror that doesn't already have a heated pad to deliver fast, efficient demisting in seconds. The technology is available as an optional extra on mirrors where indicated.

Other sizes available on request for contract orders. Demista Pads should be placed on the back of mirror's surface away from any electrical components that may be effected by the heat generated by the pad.
