Contour Heritage Green / Chateau Green /

A Natural Evolution in Colour

This year, we're introducing two new green colours across three of our core collections—each thoughtfully selected to enhance the way spaces feel and flow.

The colours in our home have a considerable influence on our mood and sense of wellbeing and while our perception of colour is deeply personal, green is consistently associated with balance, calm, and connection. As nature's most enduring hue, it draws us inward towards simplicity, clarity, and quiet beauty.

Find Contour Heritage Green in the Chiltern collection on **page 94** and Chateau Green in the Pentland and Selter collections on **page 168** and **page 190**.

Contour Heritage Green: Chiltern

Chateau Green: Pentland, Selter

“These new additions are designed to work in harmony with our existing palette, offering greater flexibility in creating cohesive, timeless bathrooms with a refined sense of character.”

Cashmere Cream

"Perfect for those looking to create interiors that are both timeless and expressive, these tones adapt beautifully to a wide range of materials, finishes, and styles—making them an ideal foundation for bathrooms designed with intention."

Contour Truffle / Contour Mussel /
Cashmere Cream

The New Neutrals

We have seen a change in what people seek from neutral colours. Rather than cool minimalism, there's a growing appetite for a new wave of warm tones that still evoke calm but bring a little more depth, richness, and personality.

These nuanced shades offer all the versatility of traditional beiges, but with a distinctly modern sensibility. Infused with subtle red and earthy undertones, they feel grounded yet elevated—offering emotional warmth and a sense of lived-in ease.

Find Contour Truffle and Contour Mussel in the Chiltern collection on **page 94** Cashmere Cream can be found in the Brecon collection on **page 40**.

Mirrors

Introducing the Ostuni Mirror

New to our mirror collection, Ostuni brings a quiet elegance through its softened form and refined simplicity. Defined by its rounded corners and minimalist profile, this design balances modern geometry with a subtle sense of softness making it as versatile as it is timeless.

With two button touch control operations, you can easily adjust the brightness, LED warmth, and activate the demister for a consistently fog-free reflection. Ostuni blends confident style with everyday ease.

Understated, balanced, and beautifully resolved, Ostuni reflects our continued commitment to feeling that follows form.

Find the new Ostuni mirror on **page 226**.

Mirrors

Introducing new sizes for the Marbella and Lixa mirrors

Good design lies in the details and in the ability to offer solutions that feel as considered as they are beautiful. We are expanding two of our most-loved mirror collections – the Marbella and Lixa collections are receiving additional sizes, designed to offer even more flexibility across a range of bathroom layouts.

Whether you're working with a compact ensuite or a generously scaled master bathroom, the extended sizing ensures a more tailored fit, without compromising on form or function. Each mirror retains the thoughtful proportions, clean lines, and refined finishes that define the collection, now made even more adaptable to individual spaces.

Find the Marbella Mirror on **page 228** and the Lixa Mirror on **page 235**. More choice, same timeless aesthetic.

Update to Basin & WC families

Refined Basin and WC families

Two new basin and WC families have been introduced this season to help you select sanitaryware that pairs seamlessly with your Fitted Furniture.

The **Denville** collection brings soft curves and understated forms into a range defined by smooth, contemporary lines and considered functionality. Designed to work in harmony, the Denville basin and WC offer a balanced and cohesive choice for modern spaces.

The **Cleveland** collection is defined by a sleek, architectural aesthetic—ideal for bathrooms with a more minimalist, contemporary feel. Its clean lines and refined proportions make it an effortless partner for our Fitted Furniture ranges.

These updates streamline how our products are grouped, making it easier to find, compare, and coordinate elements that share a consistent design language and technical specification. By refining these families, we're removing complexity and supporting more confident, cohesive decision-making—so your final space feels as effortless as it is timeless.

You'll find the new WC families on page **page 250**.

Fitted Furniture Guide

Our Fitted Furniture is designed with simplicity and functionality in mind. This brief guide will walk you through the straightforward steps to assemble a run of Fitted Furniture for your bathroom.

When you order Fitted Furniture, the unit carcass is the foundation – the core pre-assembled structure. Along with the carcass, you'll need fascias, the front panels that define your furniture's external appearance, end panels covering the sides of the carcass for a seamless look, and plinths, concealing the space underneath the unit. Some collections may also offer decorative elements that can be added to enhance the overall aesthetic of your furniture.

When you order using a unit kit code, everything you need is included. The pre-assembled carcass simplifies the installation process. Fascias, end panels, and plinths are then applied, providing a refined finish to your Fitted Furniture.

Fitted Furniture Guide

Ordering Fitted Furniture

When ordering, notice that each unit code has two asterisks (**). To select your finish, replace the asterisks with the finish code found at the top right of the pricing page. This method ensures that the correct finish fascia panels are automatically included when ordering complete units.

Therefore, if you require the unit in Brecon (BR) High Gloss White (Finish code: H), you would make a purchase using the code: 4226**BRH** (4226 + **BRH**) = Brecon High Gloss White.

Vanity to Match Fitted Furniture Guide

Our Vanity to Match Fitted Furniture collections are designed to standalone or be used to complement our larger Calypso Fitted Furniture range, offering versatility in your bathroom design.

This guide will walk you through the simple steps to order and assemble your vanity unit for a stylish bathroom upgrade.

Design your vanity in four simple steps

1 Choose Your Unit

Browse the Vanity to Match Fitted Furniture section of the brochure to find your perfect vanity unit. When you order using a unit kit code, all of the parts that you need for assembly are included.

2 Select a Finish

Each collection is showcased in one finish, with all available finishes listed at the top right of the collection pages. Each unit code in the Vanity to Match Fitted Furniture section of the brochure is followed by two asterisks (**). Replace these asterisks with the finish code located at the top right of the pricing page to complete the code for your desired finish.

3 Add a Basin

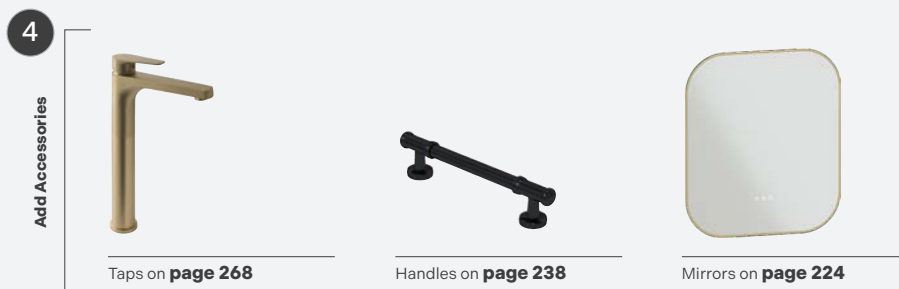

Compatible basins are listed below each vanity and may fit slightly wider than the unit.

The sit-on basins shown are the recommended size and require a worktop. All sit-on basins are universally compatible, but ensure your chosen basin fits your unit's dimensions. Some vanity units need specific worktops, which are available on the collection pages.

4 Add Accessories

Assembly Instructions

Each vanity unit comes complete with a carcass, panels, soft close fittings, and wall fixings. The pre-assembled carcass simplifies the installation process, saving you time and effort.

Reasons to Choose a 561mm Unit

Hidden Pipes Access

561mm carcasses paired with 250mm legs and plinth hide large soil pipes effectively. The removable plinth design provides easy maintenance access, keeping unsightly elements out of view.

Wall-Hung Solution

Install 561 carcass basin and base units without a plinth or legs for a streamlined, wall-hung appearance. Perfect for small spaces, this setup maximises storage while keeping the floor clear.

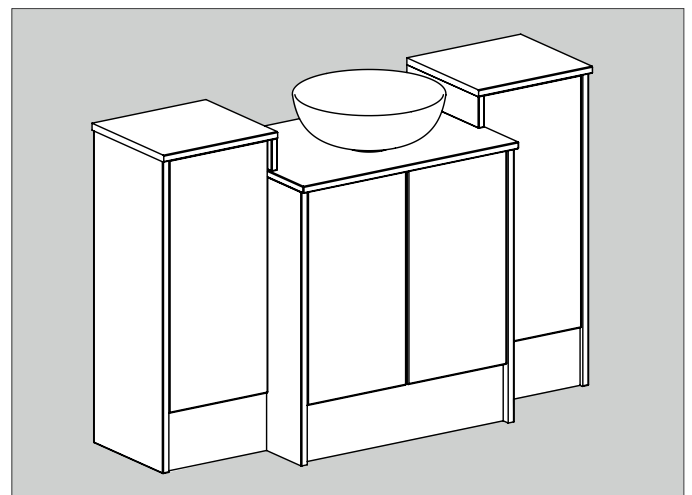

Concept for concealing soil and waste pipes within fitted furniture or walls.

Accessible Furniture

Use 561 carcass units with a 150mm plinth for a lower-height furniture run. Ideal for those needing improved accessibility, this design combines functionality with a stylish finish.

Stepped Basin Design

Use 561mm carcass with 150mm legs to create a stunning fitted furniture run featuring a stepped-down basin unit. This stylish design enhances your bathroom spaces functionality and visual appeal.

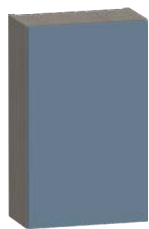

Concept for creating deep sit-on basin units integrated with standard-height fitted furniture.

Brecon Fitted Furniture Pricing

Decorative end panels are used to cover visible furniture ends and can also function as fitter or infill panels, trimmed to size as needed. Plinth panels cover the gap between furniture and floor, attaching to cabinet legs with clips. Both types have finished edges on all sides, but any cut edges must be sealed with waterproof sealant to preserve the warranty. When placing a plinth next to a unit with a floor-reaching front panel, allow an extra 50-100mm in plinth length to ensure proper overlap and gap coverage.

Four fully matched edges: Hunter Green, Blueberry, Weathered Oak.

Three metallic edges, one long edge matched to fascia: Frost White, Frost Grey, Champagne, Sea Breeze, Metallic Slate.

Decorative end panels are used to cover visible furniture ends and can also function as filler or infill panels, trimmed to size as needed. Plinth panels cover the gap between furniture and floor, attaching to cabinet legs with clips. Both types have finished edges on all sides, but any cut edges must be sealed with waterproof sealant to preserve the warranty. When placing a plinth next to a unit with a floor-reaching front panel, allow an extra 50-100mm in plinth length to ensure proper overlap and gap coverage.

Decorative end panels are used to cover visible furniture ends and can also function as filler or infill panels, trimmed to size as needed. Plinth panels cover the gap between furniture and floor, attaching to cabinet legs with clips.

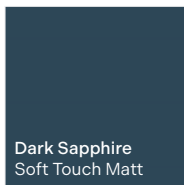

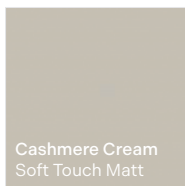

Both types have finished edges on all sides, but any cut edges must be sealed with waterproof sealant to preserve the warranty.

When placing a plinth next to a unit with a floor-reaching front panel, allow an extra 50-100mm in plinth length to ensure proper overlap and gap coverage.

Decorative end panels are used to cover visible furniture ends and can also function as fitter or infill panels, trimmed to size as needed. Plinth panels cover the gap between furniture and floor, attaching to cabinet legs with clips.

Both types have finished edges on all sides, but any cut edges must be sealed with waterproof sealant to preserve the warranty. When placing a plinth next to a unit with a floor-reaching front panel, allow an extra 50–100mm in plinth length to ensure proper overlap and gap coverage.

Decorative end panels are used to cover visible furniture ends and can also function as filler or infill panels, trimmed to size as needed. Plinth panels cover the gap between furniture and floor, attaching to cabinet legs with clips.

Both types have finished edges on all sides, but any cut edges must be sealed with waterproof sealant to preserve the warranty. When placing a plinth next to a unit with a floor-reaching front panel, allow an extra 50–100mm in plinth length to ensure proper overlap and gap coverage.
