Contour Furniture

600 Nordic Green Wall Mounted Unit | Kanto Basin | Bianco Worktop | Crew Tall Basin Mixer

Basin Units

Contour's flat fronted doors are framed by curved, contemporary edges which will fit in anywhere. Wall mounted or freestanding, and there's a multitude of sizes.

Basin Options

The Contour basin offers a slim edge with a modern curved design. Or for a truly luxurious look, opt for one of our seven stylish countertop basins, with three countertop finishes options. See page 128-129.

Handles

Contour units are supplied with curved chrome handles as standard. Upgrade these handles to a stylish matt black finish, or opt for our alternative design handle also available in chrome or matt black.

Coordinating Items

Complete the look and add extra storage at the same time with Contour's 350mm wall column. For something a little smaller, coordinating single or double door mirrored cabinets are available.

Fitted Furniture

made for living

How To Order Your Fitted Furniture

Create a unified look in your bathroom, hiding pipework as well as maximizing the space to giving more storage. Fresh contemporary finishes and a choice of worktop and basin options offer the flexibility to create the perfect solution to suit your style. To design and plan your new bathroom – simply follow our step by step guide and use the following pages for inspiration.

01 Door Style & Finish

Choose your door style and finish—either the slab door of muse, the shaker style of stow, or hide's handleless doors. Then choose your desired door finish to front your standard depth or space-saving slim depth units.

Muse			Stow			Hide		
Matt Nordic Green	Matt Dark Blue	Matt Stone Grey	Matt Stone Grey	Matt Midnight Grey	Matt Nordic Green	Matt Midnight Grey	Matt Nordic Green	Gloss White
Matt Midnight Grey	Matt Fossil	Matt Stone Grey	Matt Stone Grey	Matt Midnight Grey	Matt Nordic Green	Matt Midnight Grey	Matt Nordic Green	Gloss White
Matt Nordic Green	Matt Dark Blue	Matt Stone Grey	Matt Stone Grey	Matt Midnight Grey	Matt Nordic Green	Matt Midnight Grey	Matt Nordic Green	Gloss White

02 Handle Options

Choose your handle style from our extensive handle collection, see pages 106-107 for the full offering

03 Worktop Options

Select a worktop from either our laminate or solid stone or laminate options. These are designed to be used with our SCI, In-Line or Countertop Basins. Alternatively, for a sleek contemporary look, opt for our Isocast worktops with integrated basin, available to fit both standard and slim units.

04 Sanitaryware Options

Choose your R2 sanitaryware. See pages 126-179 for options. For more basin styles see pages 58-60.

05 Plinths & Panels

Select a plinth to fit your furniture run and any panels you may need. Filler panels can be cut down and used with a worktop to fill a void in a wall-to-wall installation.

06 Mirrors & Cabinets

Choose your preferred mirror or cabinet, see pages 235-273. Also don't forget the useful fitted furniture wall cabinets for additional storage.

07 Bath Panels

Select a coordinating bath panel. See pages 120-121.

08 Tap Options

Complete your bathroom with the addition of an R2 basin mixer. See pages 180-201 for the complete collection.

Fitted Furniture Step By Step

With our versatile fitted furniture and huge choice of additional bathroom products, it is easy to create your unique bathroom. One which will fit not only your personal style, but also the space and more practical needs that you have. Follow these easy 9 steps to help create your perfect bathroom.

Step 01

Carcass

Select your carcass. Carcasses are the building blocks of fitted furniture. Almost every run will start with a semi-countertop (SCT) basin unit, and a back-to-wall unit (BTW) which houses the cistern.

Step 02

Return plinths

Returns plinths can be used at base of carcasses to finish to the floor, if the ends of the run will be exposed.

Step 03

Cistern & Flush Button

Remember to select a cistern. The cistern is important as it provides flushing water to the pan. The cistern is housed inside the BTW carcass.

Step 04

Semi-Countertop Unit (SCT) Fascia Packs

These fascia packs comprise 2 doors with soft close hinges and a top fascia on quick release clips.

Step 05

Back To Wall (BTW) Fascia Packs

These two panels mask the back-to-wall carcass and cistern. These panels should be cut to allow the pan inlet and outlet pipes to pass through and for chosen flush button to be installed.

Useful Tips

We recommend a 5-10mm overhang of the worktop at each end of the furniture to prevent water dripping onto furniture.

Use silicone sealant to fix the basin in place and seal around the edge of the basin to prevent water ingress.

Step 06

Plinth

These mask the plumbing gap below the carcasses. They are optional and are not required for a wall mounted run.

Step 07

Worktop or Integrated Basin

A wide range of worktop options or integrated basins and worktops add to the custom feel of fitted furniture. Slim and standard depths are available in all. Worktops are available in a variety of lengths and patterns. The worktop and SCT top fascia should be cut to suit basin selected.

Step 08

Basin & WC

We offer a wide range of basins and pans to suit your style and which slot perfectly into our fitted furniture ranges.

Step 09

Handles

We offer a wide selection of handles to complement all our fitted furniture ranges.

Consider Worktop Options

Why not define the overall style of your fitted furniture unit further by choosing an aspirational solid surface natural stone-like worktop, alternatively choose a laminate worktop from our range of go to laminate finishes. See pages 104-105 for more details.

Stylish & Versatile

Solid Surface Worktop Options

An ideal solution for those wishing for the aspirational look and feel of solid surface worktops, at a price to make it reality. Made from a solid 25mm sheet, the natural stone-like beauty combined with a square edged profile makes them a perfect choice for your bathroom. See pages 119 for worktop pricing.

Useful Tips

Being solid, strata can be cut to whatever size or shape your bathroom demands using standard woodworking tools, with no need to bond or use finishing strips. Simply cut to the desired profile and sand down the end to a fine finish.
