Life Made Better

**SOLUTIONS FOR
RETIREMENT & CARE**

AKW: STYLISH SPACES THAT DON'T SACRIFICE ON SAFETY

For 40 years we've been Making Life Better by designing inclusive bathroom solutions that cleverly combine safety, functionality, durability and aesthetics.

As market leaders with decades of experience, we firmly believe that adapted spaces shouldn't have to look or feel clinical in order to be safe enough for people with accessibility requirements to use them.

AKW Solutions for Retirement & Care is a curated collection of products that we feel offers everything needed to create a safe, stylish, inclusive bathroom space ideal for the retirement and care sector, including Onyx mobility aids, mixer and electric care showers, screens and wall panels.

Plus, as a one-stop shop with a portfolio of over 5,500 products, we can also supply a diverse range of sanitaryware, brassware, furniture and tiling solutions too.

ONYX EXCLUSIF SHOWER TRAY

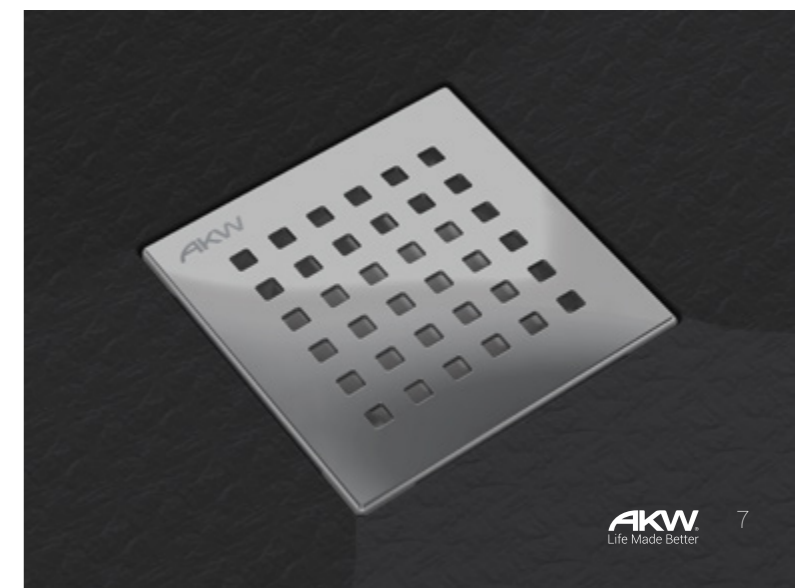

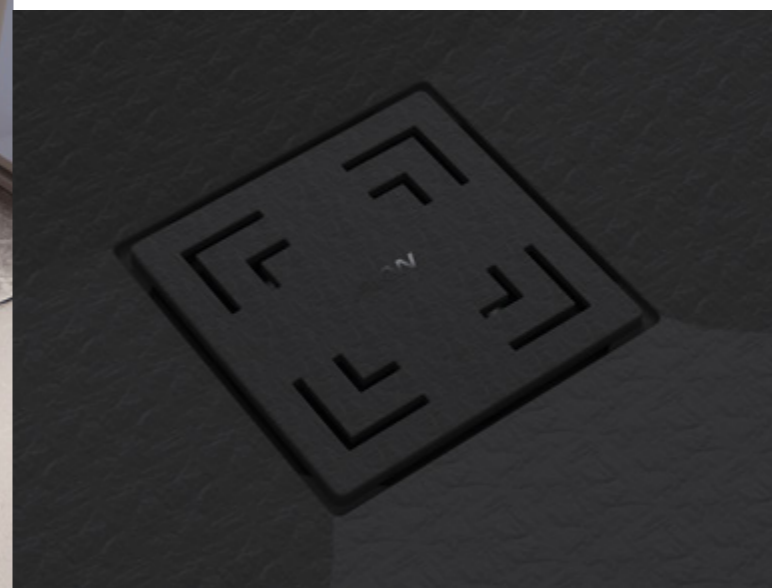

With its contemporary aesthetic, the Onyx Exclusif Shower Tray provides a stylish yet strong showering solution, with a maximum capacity of 31.5 st (200kg) and a variety of sizes to accommodate people using wheelchairs or requiring support from carers.

Designed to offer stability for people with reduced mobility, the textured surface finish ensures a high level of slip resistance, with the shallow 26mm tray depth ideal for installing above the floor or recessing into it, offering low-level or full level access into the shower.

In bathrooms where the tray cannot be recessed to provide level access, Onyx Exclusif Ramps enable step-free access into the showering area when the tray is installed above the floor.

- + 26mm shallow tray depth
- + Available in cool white or bold black
- + Choice of two stylish waste covers
- + Textured surface finish with high slip resistance
- + Low-level or full level access

ONYX 2 GRAB RAILS

Onyx 2 Grab Rails feature a polished chrome, triangular-shaped rail for improved grip when moving around the bathroom, showering, or using the toilet.

Onyx 2 Straight Grab Rails are offered in 3 lengths: 300, 450 and 600mm. Onyx 2 135° Angled Grab Rails benefit from two rails and are ideal for seated areas such as in the shower or by the toilet.

Onyx 2 T&L-Shaped Grab Rails feature two rails that can be installed in a configuration that suits the resident, and replaces a riser rail in the shower, with an adjustable handset holder and shelf included.

All rails are supplied with matt-finish, cool white bracket covers; the design can be easily customised with a choice of 9 interchangeable bracket covers available to order separately, a selection of which are shown opposite.

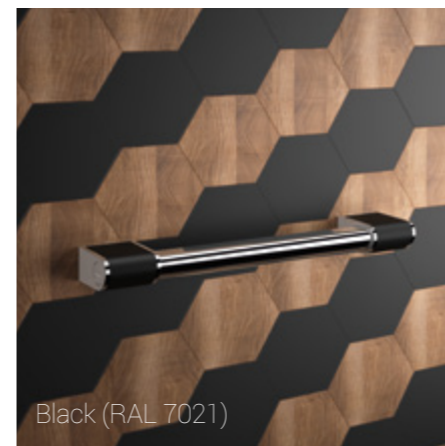

- + Made from durable aluminium alloy
- + 9 interchangeable bracket covers available
- + Can support up to 23.5st (150kg)
- + Straight, angled or T&L-shaped rails offered
- + Triangular bar for improved grip

ONYX SHOWER SEATS

Onyx Shower Seats offer reassurance and stability when it's needed, and simply fold away to save space when it's not.

The sturdy and adjustable aluminium leg design provides support for up to 31.5st (200kg), with the stylish ergonomic seat designed for comfort.

All Onyx seats are available with or without a back rest and folding arms that can be installed at a height suitable for the resident.

A Compact model is offered for smaller spaces, with an Adjustable Leg solution designed to provide greater flexibility upon installation.

- + Available in cool white or bold black
- + Supports up to 31.5st (200kg)
- + Standard, Adjustable Leg and Compact solutions
- + Optional Seat Back & Arms
- + Folds away when not needed

Onyx Shower Seat with Adjustable Leg

Onyx Compact Shower Seat

ONYX COMBO MIXER SHOWER

Offering a safe showering experience, the Onyx Combo Mixer Shower features a TMV2-approved mixer valve which is cool-to-touch to prevent scalding, and easily operated using two paddle levers designed for people with limited dexterity.

The Onyx Combo cleverly incorporates two weight-loading grab rails into the L-shaped design, these extend from the valve with a vertical riser and horizontal grab rail which are able to support residents of up to 23.5st (150kg).

Left and right-handed configurations are available depending on spatial requirements, with interchangeable paddle lever covers supplied in black or white.

- + Cool touch valve prevents scalding
- + Two integrated support rails
- + White and black lever covers supplied
- + Left or right-handed configurations
- + 3-year warranty as standard if registered within 30 days of installation

ARKA® THERMOSTATIC TMV3 MIXER SHOWER

The Arka Thermostatic Mixer Shower is TMV3 approved for use in commercial care environments and benefits from safe and reliable thermostatic protection. Designed to be easy to use by people with limited dexterity, the valve features paddle levers which independently control water temperature and flow.

The valve can be paired with standard or care accessory kits, both of which include a 2m anti-kink hose, ideal for care-assisted showering, with the care kit additionally benefitting from a 1m riser rail that can support up to 23.5st (150kg) and offers extra stability.

- + Stylish chrome-finished brass mixer valve
- + Available with water-saving fitted flow limiter for a maximum flow rate of 8lpm
- + Supplied with a choice of standard or care shower kits
- + Valve can be installed with concealed or exposed pipework

ON/OFF SHOWER HEAD

Reduce water wastage and support care-assisted showering with a convenient button which reduces the water flow to a trickle when pressed, helping to keep the carer drier.

- + Press button reduces water flow when needed
- + 3-mode shower handset
- + Compatible with AKW mixer showers

EASY CLEAN SHOWER HEAD

Designed for environments where hygiene is the top priority, the faceplate can be easily removed to facilitate regular cleaning, with it's simple design helping to prevent the build-up of bacteria.

- + Two removable, interchangeable faceplates supplied
- + Three component construction (faceplate, nozzles, faceplate)
- + Compatible with AKW electric and mixer showers

Browse Electric Showers

AKW SMARTCARE PLUS® ELECTRIC SHOWER

Designed for people living with visual impairment or dementia, the SmartCare Plus Electric Shower benefits from innovative care features and comes with a care accessory kit as standard.

- + Raised, tactile, contrasting controls with audible, LED setting indicators
- + Anti-glare central control panel
- + Optional eco setting reduces flow rate to 6lpm
- + Care accessory kit: 2m anti-kink hose, 1m 150kg load-bearing riser rail, shelf with non-handed integral hose retainers, lever-operated sliding handset holder, additional wall-mounted handset holder, 3-mode shower head

AKW SMARTCARE® LEVER ELECTRIC SHOWER

An ideal showering solution for people living with dementia, sight loss or limited dexterity, the SmartCare Lever Electric Shower is available with a choice of standard or care shower kits to address various clinical needs.

- + Easy-to-operate lever with raised, tactile and contrasting controls, and audible LED setting indicators
- + Anti-glare central control panel
- + Optional eco setting reduces flow rate to 6lpm
- + Care accessory kit: 2m anti-kink hose, 1m 150kg load-bearing riser rail, shelf with non-handed integral hose retainers, lever-operated sliding handset holder, additional wall-mounted handset holder, 3-mode shower head

STANDARD & SILVERDALE CARE SCREENS

All AKW care screens are designed with practicality, durability and safety in mind.

With a wide variety of sizes and configurations, screens feature 180° rising butt and 360° bi-fold hinges, with a choice of white or silver frames, frosted or clear PET glazing, and colour contrasting elements if needed.

We also proudly offer a made-to-measure screen service and can manufacture almost any screen combination to your requirements in our UK facilities.

LEVEL BEST GLASS SCREENS

Stylish Level Best screens feature a wall-mounted, 6mm single glass panel that can be installed on a wet floor or onto a shower tray.

Screen profiles are available in polished chrome or matt black, with an optional deflector panel offered to aid with the retention of water.

- + Strong, 6mm toughened glass for increased safety
- + Can be used with a shower tray or in a wet room
- + Optional deflector panel available

WET ROOM FORMERS

Browse Wet Room Formers

TUFF FORM®

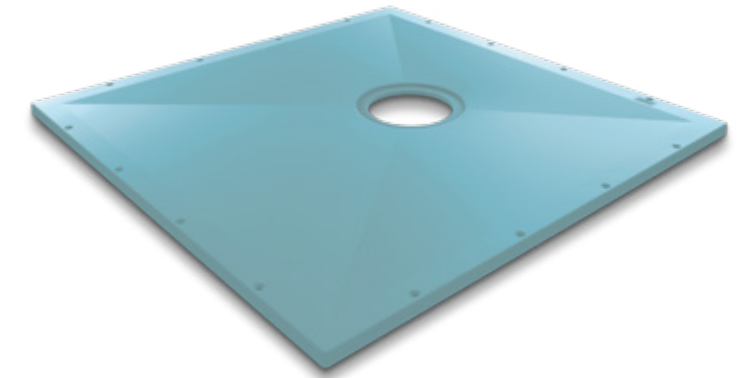

AKW Tuff Form wet room formers help you to create fully accessible, level-entry wet floor shower areas which make excellent use of available space and benefit from precision drainage to prevent water pooling, making them the ideal solution for multi-user bathrooms and care environments.

Designed for everyday durability, Tuff Form formers are manufactured from compressed GRP and are engineered to be strong enough to support both a person using a wheelchair and an accompanying carer of up to 60st (381 kg).

Quick and easy to install, formers can be trimmed down on site, come with pre-drilled fixing holes, and can be finished with either vinyl safety flooring or tiles.

- + Multiple sizes available, can also be trimmed
- + Lightweight yet incredibly strong GRP construction
- + Offset waste hole with 4 gradient planes
- + Compatible with a variety of AKW wastes
- + Suitable for wooden and solid floors

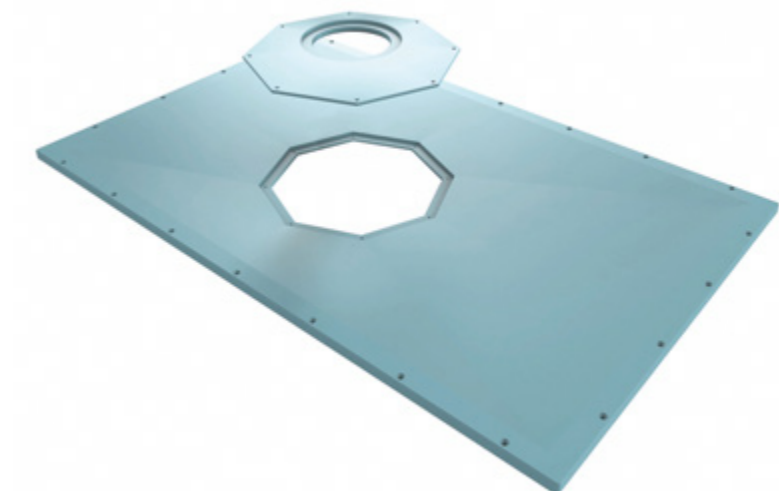

TUFF FORM8®

Tuff Form8 wet room formers benefit from all the same reliable features of Tuff Form, but with an octagonal waste plate that rotates to offer greater flexibility during installation with up to 15 different waste positions available.

- + Adjustable waste plate helps to avoid obstructing joists
- + Up to 15 different waste positions
- + Continual fall all the way to the waste

STRAIGHT STAINLESS STEEL GRAB RAILS

AKW Straight Stainless Steel Grab Rails offer stability to people with reduced mobility when moving around the bathroom, entering/exiting the shower, or lowering down to/rising from the toilet.

Available in satin stainless steel or matt black finishes, the discreet yet contemporary design features concealed fixings and a sleek tubular rail which blends into the bathroom while ensuring support is there when needed most.

All wall fixing points are concealed by a removable bracket cover which makes the rail easier to clean and protects internal components from exposure to water, dust, and dirt.

- + 300 / 450 / 600mm lengths
- + 32mm diameter tubular rail
- + Satin stainless steel or matt black finishes
- + Maximum weight capacity of 150kg / 23.5st
- + Up to 9 fixing points per bracket offering flexibility to fit multiple screws where needed; each rail has 2 brackets

CURVED STAINLESS STEEL GRAB RAILS

AKW Curved Stainless Steel Grab Rails feature a minimalist design while providing vital support to people with reduced mobility when using the bathroom.

Available with a brushed stainless steel finish, these discreet yet contemporary rails features concealed fixings and a curved tubular rail which looks at home in any modern bathroom.

The rail's fixing points are cleverly concealed by a removable bracket cover which makes them easier to clean, while also protecting the internal components from exposure to water, dust and dirt.

- + 200 / 300 / 400mm lengths
- + 32mm diameter curved tubular rail
- + Brushed stainless steel finish
- + Maximum weight capacity of 23.5st (150kg)
- + Up to 9 fixing points available per bracket for greater flexibility when installing; each rail has 2 brackets

MID-GREY ACCESSORIES

GRAB & SUPPORT RAILS

Several stainless-steel grab rails are available in mid-grey (as well as other colours) to offer residents with dementia or visual impairment colour contrast as well as support when in the bathroom.

- + Range includes Fold-Up Support Rails (pictured)
- + Colours include stainless steel, white, blue, mid-grey and dark blue

ERGONOMIC TOILET SEATS

Ergonomic Toilet Seats are available with or without a lid, are shaped for greater comfort, and are designed to provide stability for people when transferring to/from a wheelchair.

- + Offered in white, blue, mid-grey or dark blue

2000 SERIES SHOWER SEATS

2000 Series Shower Seats (pictured opposite) feature a fold-up seat and support arms, with durable pads available in mid-grey (as well as other colours) to offer sufficient colour contrast in the showering area.

- + Colours include blue, mid-grey and dark blue

CURTAIN RAILS

Designed for use with Silverdale Care Screens or as a standalone rail for installations without a screen, Grey Curtain Rails (pictured opposite) are not only a more stylish option, but they help to provide colour contrast when needed.

WASTE COVER

Ideal for installation in Tuff Form wet rooms, Grey Waste Covers can either provide necessary colour contrast for people with sight loss, or they can be used to blend the waste into the floor, helping to prevent confusion for people living with dementia.

Browse Wall Panels

AKW Alvéo Concrete Matt

AKW MARLBROOK® WALL PANELS

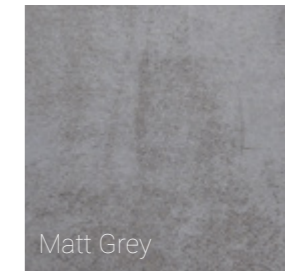

Strong and long-lasting, these structural 12mm WPS plywood substrate panels are finished on both sides with a durable water and scratch-resistant, high-pressure laminate (HPL) coating available in 6 designs.

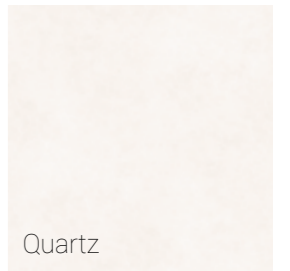

Marlbrook panels are ideal for uneven walls and can be installed over existing tiles if required, offering a vast reduction in preparation time.

Panels feature a square edge that can easily be trimmed down to size, and can be used to create boxing around unsightly pipework - or even to surround a bath for greater consistency.

- + 300 / 600 / 900 / 1220mm panel widths, 2440mm height
- + Square edge panel
- + Multiple profiles available, with 2-part profiles helping to reduce maintenance headaches

AKW ALVÉO PVC WALL PANELS

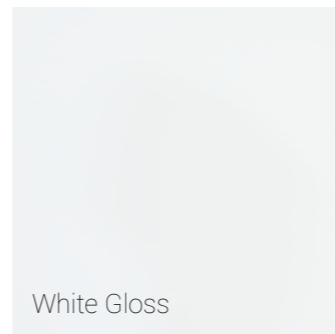

A cost-effective alternative to tiles, Alvéo PVC Wall Panels provide a highly durable, practical bathroom solution. Made from robust yet lightweight 10mm thick PVC, these panels are very easy to clean with fewer joints and dirt traps, and absolutely no need for grout.

Incredibly quick and easy to install with an interlocking tongue and groove edge, panels cover large sections of the wall and offer the flexibility to fit directly over almost any existing surface.

- + 600 / 1000mm panel widths, 2500mm height
- + Interlocking tongue and groove panel edge
- + Profiles and Accessory Fixing Kit also offered

LEVEL, STEP-FREE ACCESS

People living with dementia are at an increased risk of falls, which is why a dementia-friendly bathroom should offer level access throughout, with no steps or uneven surfaces which could pose a hazard.

Protruding sharp edges, glass screens, and free-standing furniture/fixtures should also be avoided as they could cause greater damage in the event of a fall.

SAFETY FLOORING

Changes in floor colour can lead people with dementia to believe there is a step, which could cause a fall when attempting to avoid the perceived risk. The floor should be a single colour throughout, with the safest solution being a level-access wet room finished with vinyl safety flooring in one consistent colour.

Avoid very dark flooring which could be perceived as a hole, anything shiny or reflective that could be perceived as being wet, and flecked or small patterned flooring as the pattern could be mistaken for dirt.

ANTI-GLARE SURFACES

Some people with dementia will not recognise their own appearance, which is why reducing the amount of reflective surfaces in the bathroom is incredibly important.

Blinds are recommended to shield from harsh light streaming through windows and can also be installed over mirrors. Matt-finish wall panels, tiles that deflect glare, and frosted PET glazing can also help to reduce glare and avoid unnecessary confusion.

FAMILIARITY OF FIXTURES

Unfamiliar fixtures can cause distress for people living with dementia; familiar looking and feeling products that are easier to recognise and remember the operation of are preferred in these cases.

Examples include taps with traditional handles, separate hot/cold taps with red/blue temperature indicators, lever toilet flushes, and showers with clear controls/settings.

PROTECTION FROM SCALDING

People with dementia may forget that taps, valves, radiators or exposed pipes may be hot, meaning they're more susceptible to scalding and burns.

Unregulated water temperature can also be a safety issue; to avoid this, install thermostatic taps and/or showers which ensure the water temperature remains constant, so there's no risk of scalding or being shocked by a sudden temperature change.

If a mixer shower is being installed, then you should choose one with a cool-touch valve, or go for an electric shower instead.

COLOUR CONTRAST

People living with dementia can become distressed if they find it difficult to locate and use items within the bathroom.

One way to help is to use strong contrasting colours to clearly define the different areas of the bathroom, such as the shower and toilet, and make the operation of various items easier.

TASK-FOCUSED LIGHTING

Another way to make it easier for someone with dementia to locate and use items in the bathroom is with lighting.

Task-Focused Lighting can help people with dementia find specific task areas, with narrow beam spotlights which illuminate key areas to ensure they stand out, such as the toilet, sink, controls on the shower, and the shower seat.

MORE THAN WORDS: HOW WE'RE MAKING LIFE BETTER

Scan to browse our ESG journey

PROTECTING OUR PLANET

- + Committed to reducing plastic waste and increasing use of more sustainable materials
- + Invested in the design of water-saving products to help preserve resources and lower utility bills

HELPING OUR COMMUNITY

- + AKW Helping Hands Volunteering scheme enables colleagues to support local good causes as part of their employment, with two paid volunteering days per year

SUPPORTING OUR PEOPLE

- + Encourage training and development opportunities
- + Access to colleague benefits platform which helps to save money on everyday expenses

ECOVADIS SILVER MEDAL

- + Awarded EcoVadis Silver Medal sustainability rating two years running – putting us in top 15% of companies assessed globally

WORKING RESPONSIBLY WITH OUR SUPPLIERS

- + Collaborating with transport providers to reduce carbon emissions
- + Building relationships with suppliers who actively give back

PROMOTING FAIRNESS THROUGH OUR POLICIES

- + Employee Assistance Program and Occupational Health supports colleague wellbeing and mental health
- + Enhanced maternity, paternity and adoption leave, flexible working opportunities, offering reasonable adjustments

INDUSTRY INNOVATORS

With a portfolio of over 5,500 products designed to offer a one-stop shop solution, our expert in-house engineers create inclusive innovations that aim to make life better – and we do exactly that, better than anybody else.

MANUFACTURED TO LAST

As experienced manufacturers, we oversee every stage of the production process from beginning to end, that's why we're confident enough to offer the longest warranties in the market and give our customers ultimate peace of mind.

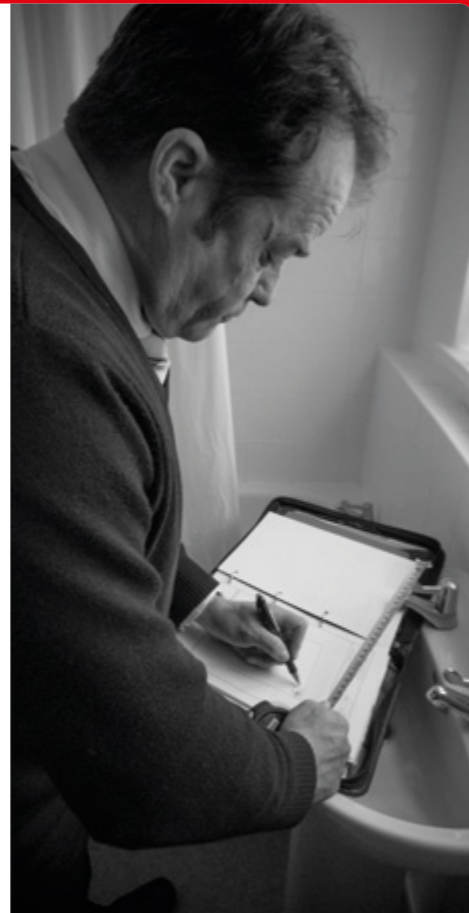

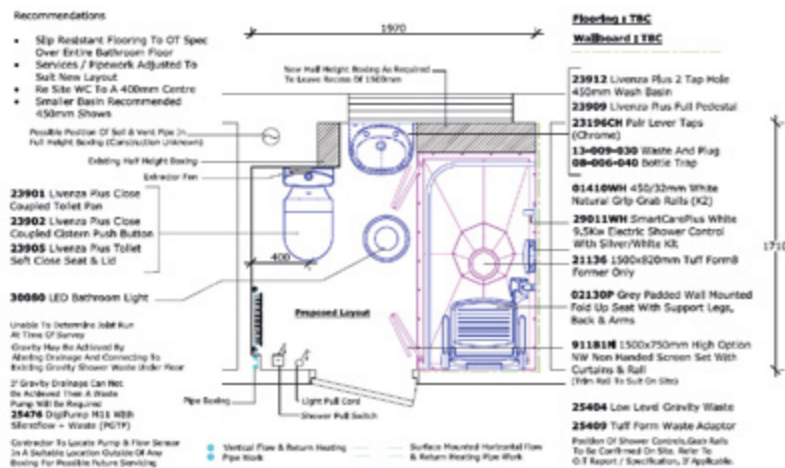

PRIORITISING SAFETY

Our products are independently assessed and certified by third-party organisations, and rigorously inspected by AKW Quality Control colleagues who work to ISO standards to ensure they meet the required care and safety standards for our customers.

NATIONWIDE SURVEYING SERVICE

Our nationwide team of skilled Surveyors can conduct on-site visits on the UK mainland within 10 days of full instruction.

During their visit, they will take a variety of measurements and offer advice about the options available. After this, they will provide detailed 2D drawings of the existing and future bathroom designs to help deliver the most effective bathroom installation for the resident.

WE'RE HERE TO HELP

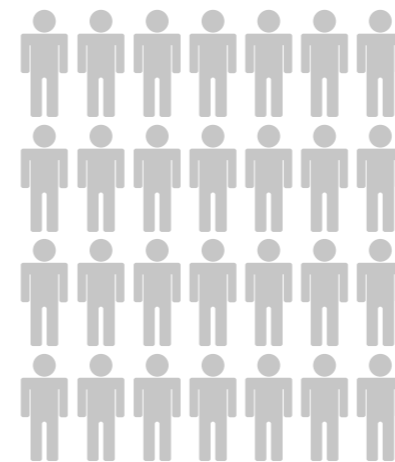

Our experienced network of Sales Representatives can offer insightful knowledge and practical advice, we can even deliver Toolbox Training in person, in your local area.

We're also lucky to have a team of regional Customer Service Advisors trained to deliver market-leading support to our customers on the phone or via email.

DEDICATED TRANSPORT NETWORK

With stock available from several UK-wide distribution hubs, we're able to provide next-working-day delivery services in partnership with renowned national distributors XPO Logistics and DPD, who delivered an impressive 99.16% of orders on time and in full in 2024.

AFTERCARE & ON-SITE REPAIR

Take advantage of expert guidance from our in-house Technical Team who are just at the end of the phone and boast years of experience in the plumbing industry.

Should you need technical support on site, our nationwide team of skilled Maintenance Engineers can be with you within 3-working-days, if required.
