\* Further heat output information available on eastbrooktrade.com **E&OA**

### TECHNICAL INFORMATION

All measurements in Height by Width. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type C, E or H. For element types see pages 336-349. For matching valves see pages 350-365. Comes with pre-fitted flow diverter (except 500 & 600mm heights). Flow diverter must remain in place when radiator installed on central heating system (only for vertical installations). For indirect heating systems only. In vertical installation, tappings are the width of the rail and approx. 63mm off the wall. In horizontal installation, tappings are approx. 50mm less than the width of the rail and approx. 63mm off the wall. Price includes radiator and wall fixing sets, valves extra. Cannot be used with dual fuel thermostatic valves.

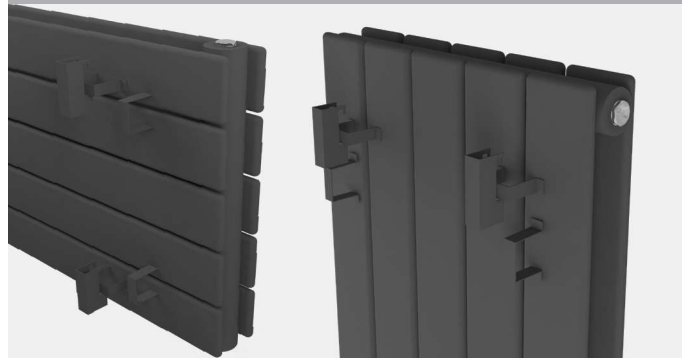

Pictured 62.00231 Matt Anthracite (Fitted Horizontally)

Double profile construction

Radiator can be installed vertically or horizontally using the pre-fitted wall bracket holders. (Below images)

Pictured 91.0014 Gloss White (Fitted Horizontally)

Single profile construction

Radiator can be installed vertically or horizontally using the pre-fitted wall bracket holders. (Below images)

### TECHNICAL INFORMATION

All measurements in Height by Width. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type C, E or H. For element types see pages 336-349. For matching valves see pages 350-365. Comes with pre-fitted flow diverter (except 500 & 600mm heights). Flow diverter must remain in place when radiator installed on central heating system (only for vertical installations). For indirect heating systems only. **In vertical installation**, tappings are the width of the rail and approx. 40mm off the wall. **In horizontal installation**, tappings are approx. 50mm less than the width of the rail and approx. 40mm off the wall. Price includes radiator and wall fixing sets, valves extra. Cannot be used with dual fuel thermostatic valves.

## ADDINGTON TYPE 20 - GLOSS WHITE

A designer radiator range available to fit both vertically and horizontally designs in a gloss white finish.

### FEATURES

- Tested to BS EN 442 standards
- Double profile construction
- Maximum corrosion resistance
- Cataphoretic painting technology
- Can be installed vertically or horizontally
- Can be single, dual fuel or all electric
- 5 Year Manufacturer's Warranty\*
- \* With conditions

**Technical Tables  
& Drawings**

1800 x 588mm	882	1687	600W	A+, B	91.0038	1048.00	<b>1257.60</b>

### TECHNICAL INFORMATION

All measurements in Height by Width. Radiators that are electric only are restricted to the heat output of the elements. Element size can be increased to full capacity of rail if using element type C, E or H. For element types see pages 336-349. For matching valves see pages 350-365. Comes with pre-fitted flow diverter (except 500 & 600mm heights). Flow diverter must remain in place when radiator installed on central heating system (only for vertical installations). For indirect heating systems only. In vertical installation, tappings are the width of the rail and approx. 64mm off the wall. In horizontal installation, tappings are approx. 50mm less than the width of the rail and approx. 64mm off the wall. Price includes radiator and wall fixing sets, valves extra. Cannot be used with dual fuel thermostatic valves.

### Multi-Purpose Towel Hangers
